

PROJECT FIELD ENGINEER

SUPERVISION ERECTION WORKS

YOUR FUNCTION

As a site supervisor you will be frequently abroad for longer periods, varying from several days to 3-4 weeks at once. It means that you like to travel and you're ready to stay out of home several months per year. Your responsibilities on-site :

- Guide and follow-up of the local assembly partners, subcontractors and the operation teams of the customers
- Coordination on-site, including progress meetings
- Follow up the budget of the site activities
- Respect for the safety instructions
- Detailed registration of the executed works and activities
- Meet project deadlines & milestones
- General troubleshooting
- Give feedback to the project team in Harelbeke

YOUR PROFILE

- You have a Master degree, by preference in Electro-Mechanics. Every year of relevant experience is an asset. But your eagerness to learn is of equal value to us.
- You have a hands-on approach and are able to work independently
- You like working abroad or can cope with a high travel frequency
- You have good communication skills, also in English and French

VYNCKE is a dynamic, family owned company that, since the start in 1912, has grown to a global player in the sector of clean energy technology : more precisely the development and construction of customized waste to energy installations.

Worldwide more than 300 Vynckeneers, as we call our employees, are stationed in our offices in Brazil, Belgium, Germany, Czech Republic, India, China, Thailand and Malaysia.

Thanks to more than 4.000 satisfied customers all over the world, a well-lined order book and the loyal commitment of the enthusiastic Vynckeneers we maintain a stable position in the market. This allows us to offer excellent job security.

Are you a real team player, do you enjoy own responsibility and taking initiative, do you have an open international mentality and are you willing to travel? Then probably you could be one of the new Vynckeneers!
