

INTERNATIONAL FIELD ENGINEER (JUNIOR)

YOUR FUNCTION

- I/O and electrical connections testing.
- Energy plant control software upload (PLC, visualization).
- Starting and testing the first fire in the energy plant.
- Fine tuning of the installation in order to meet the required performances (stability, power output, emissions).
- Keep in close contact with the clients on site and at the same time with project team in the Vyncke office. You are the bridge between both.
- Measuring and calculating the boiler performance according to the design and providing feedback to the project engineers.

YOUR PROFILE

- The position is open for fresh graduates with very fast learning curve.
- Master or bachelor degree in technical field (Electrics ; Measurement & Regulation ; PLC programming ; Boiler or combustion technology).
- Fluent English is a must.
- Ability to work independently, communicative person willing to learn new things.
- The position is suitable for graduates.

VYNCKE is a dynamic, family owned company that, since the start in 1912, has grown to a global player in the sector of clean energy technology : more precisely the development and construction of customized waste to energy installations.

Worldwide more than 300 Vynckeneers, as we call our employees, are stationed in our offices in Brazil, Belgium, Germany, Czech Republic, India, China, Thailand and Malaysia.

Thanks to more than 4.000 satisfied customers all over the world, a well-lined order book and the loyal commitment of the enthusiastic Vynckeneers we maintain a stable position in the market. This allows us to offer excellent job security.

Are you a real team player, do you enjoy own responsibility and taking initiative, do you have an open international mentality and are you willing to travel? Then probably you could be one of the new Vynckeneers!
