

PROJECT MANAGER ENERGY PLANTS

YOUR FUNCTION

- You are responsible for the execution of the project, according to the budget, deadlines and contractual requirements.
- You are the single point of contact for our customer, the project team and management concerning the implementation of your project.
- You plan a flawless project execution, define milestones and priorities for the project team members.
- By means of regular progress meetings, you coordinate and organize all different project flow activities and follow up on timings and requirements.
- You actively control and forecast your project budget. You follow up the financial and contractual milestones with the customer and you ensure your presence at site meetings.
- You manage project related supplier quotations, purchase orders and subcontractors.
- You structure the project administration and communication.
- You are reporting to the project team manager.
- Are you the crucial link that lifts our projects to the next level and leads the way?

YOUR PROFILE

- You have a master's degree in Engineering.
- You have a minimum of 5 years of Project Management experience.
- Not only do you feel comfortable communicating with customers and project teams, but your interpersonal skills also allow you to build strong relationships with your stakeholders.
- You feel energized when you work with people and everything seems to happen at once.
- Meeting deadlines, prioritizing and delegating key responsibilities amongst the project team members keeps your fire burning.
- You will be based in Harelbeke, but you are willing to travel to your customer's project team.
- You speak fluent in English and feel comfortable in French. Any other language is an asset.
- You are willing to travel (short trips) to our customers and their production plants.
- You are a team player, have strong interpersonal skills and are fluent in English.

VYNCKE is a dynamic, family owned company that, since the start in 1912, has grown to a global player in the sector of clean energy technology : more precisely the development and construction of customized waste to energy installations.

Worldwide more than 350 Vynckeneers are stationed in our settlements in Brazil, Belgium, Germany, Czech Republic, India, China, Thailand, Spain and Malaysia.

Thanks to more than 4.000 satisfied customers all over the world, a well-lined order book and the loyal commitment of the enthusiastic Vynckeneers we maintain a stable position in the market. This allows us to offer excellent job security.

Are you a real team player, do you enjoy own responsibility and taking initiative, do you have an open international mentality and are you willing to travel? Then probably you could be one of the new Vynckeneers!
